May 2, 2006,

Dear Mr. ███:

"A breeze to use! My site has never functioned or looked so top-notch! And already, I'm seeing results." That's what ███ of ███ Auto Auction has to say about our work. Mr. ███ was using a website that his staff maintained by manually updating html files. The process was inefficient, often frustrating, and despite all their efforts, the site failed to project the right image for ███ Auto Auction.

The Solution… AutoJini. We created an easy-to-use application for Mr. ███. Now, with a few keystrokes, his staff posts the details of his auctions on the website, neatly, correctly, and quickly. And most importantly, Mr. ███ has a website that inspires auto dealers to visit ███'s auctions.

This example demonstrates one of the many solutions AutoJini creates for auto auction houses like yours. Among our many solutions, AutoJini can enhance your site with:

- Auction Calendars
- Inventory File Uploads
- Inventory Reports
- Printed Inventory Lists for Broadcast Faxes
- Online Auction Ad Postings

To give you a better idea of the solutions we can implement for you, we will call you to set-up a time to for an online demo. Until then, if you have any questions, please feel free to call us. Thank you for taking the time to learn about us!

Sincerely,

Syed Azam
